Complexion Secrets
By Priscilla Dean

"If there is any other class of persons in the world whose complexion is put to a more difficult test than screen players I can't imagine who they could be," said Priscilla Dean in a recent interview. "Our complexion must be as nearly perfect as possible each of the 365 days of the year, and the long location trips we take in every kind of weather demand that we give the strictest attention to our skin."

"Common sense teaches us that the first necessity for a soft, fresh skin is cleanliness. For this purpose I use Liska cold cream, which I have found to be very superior, and follow this by bathing the face with warm water, then rinse with cold water, dry thoroughly and apply Derwillo, a simple and attractive toilet preparation."

"When I was appearing in 'Confict' I spent several weeks on location in British Columbia, and was in and out of the water a great deal. A cutting wind blew continually and I feared for what it might do to my skin. However, I applied Liska cleansing cream and Derwillo regularly and was fully protected."

"In the filming of 'Wild Money' I spent weeks on the deserts of California and Arizona. The wind and sand would leave my face dry and hard, but after an application of Liska and Derwillo it would clear up beautifully. They are very satisfactory preparations."

Derwillo makes the skin appear transparent, smooth and velvety, giving one a more youthful appearance. It is especially recommended for dark, sallow skin, shiny nose, coarse pores, blackheads, rough skin, redness, wrinkles, and other skin blemishes on the face, hands and arms.

If your neck or chest is discolored from exposure apply Derwillo and Liska cold cream with the understanding that if you don't like them after the first application they will refund your money. They are sold everywhere under a money refund guarantee at the toilet counters of all department stores and druggists.
